Subject: CECCM Aircraft paper

Tony,

I was wondering what the status of the CECCM Aircraft paper was these days. Matt had sent the latest version he received to Marty Warren. I called her to express my views, that I truely didn't want the paper to happen, but if it was going to happen, regardless of our logical pleas, that it should be as generic as possible. She said she'd coordinate with you on this. Could you please keep Matt and I in the loop on the papers status.

Many thanks.
Regards,
Anne
